

AJITH K A

Senior Frontend Engineer | React.js | Next.js | TypeScript | Frontend Architecture

7904949080 | ajithkuten1998@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 7+ years of experience building scalable, high-performance web applications using React.js, Next.js, TypeScript and JavaScript. Experienced in frontend architecture, SSR, micro-frontends, WebSockets, performance optimization, CI/CD and GCP-based deployments. Proven experience leading frontend teams, owning enterprise modules end-to-end, and collaborating with product, QA, design and backend teams.

CORE SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap
Architecture	SSR, Micro Frontends, Component Design, Design Systems, Performance Optimization
Integration	REST APIs, WebSockets, Axios, State Management
Cloud & DevOps	GCP (4+ years), AWS, Azure, CI/CD Pipelines, Docker, Deployment Automation
Engineering	Git, Agile, Scrum, Code Reviews, Jira, Production Support, Release Management

KEY ACHIEVEMENTS

- 93.8% Lighthouse performance score through bundle optimization and lazy loading.
- Contributed to a 94% improvement in website conversion metrics through UX-focused redesign.
- Led a team of 6 engineers and delivered enterprise frontend modules.
- Designed scalable deployment workflows integrated with cloud CI/CD pipelines.

PROFESSIONAL EXPERIENCE

SDE II – Frontend Development

ARRise powering Pragmatic Play | Feb 2025 – Present

- Lead frontend architecture initiatives using React and TypeScript for enterprise applications.
- Build scalable and reusable component libraries used across enterprise applications.
- Drive performance, maintainability and code-quality improvements across frontend modules.
- Collaborate with product, QA, design and backend teams to deliver business-critical releases.
- Support production deployments, troubleshooting and release management.

Module Lead

Celsior Technologies | Aug 2022 – Feb 2025

- Led and mentored a team of 6 frontend engineers across enterprise application delivery.
- Defined technical roadmaps and frontend architecture standards focused on scalability and maintainability.
- Conducted code reviews and established engineering best practices.
- Worked directly with stakeholders to translate business requirements into technical solutions.
- Managed sprint planning, estimation and delivery tracking.

Application Developer

Tanisha Systems Inc | Apr 2021 – Aug 2022

- Developed scalable enterprise applications using modern JavaScript frameworks.
- Integrated RESTful APIs and optimized frontend-backend communication.
- Improved responsiveness, maintainability and user experience.
- Participated in production support and release activities.

Frontend Developer

Zencode Group | Dec 2018 – Apr 2021

- Built responsive web applications following accessibility and UX standards.
- Contributed to conversion growth through UI modernization initiatives.
- Implemented performance optimization strategies for faster page loads.

TECHNICAL & ARCHITECTURE HIGHLIGHTS

- **React:** Hooks, Context API, component optimization and reusable component patterns.
- **Next.js:** SSR, routing, API integration and frontend performance optimization.
- **Architecture:** Micro-frontends, reusable component libraries, design systems and scalable UI architecture.
- **Real-time:** WebSockets and event-driven UI updates.
- **Performance:** Lighthouse, Core Web Vitals, lazy loading, code splitting and bundle optimization.
- **Cloud:** 4+ years of hands-on GCP experience, with AWS and Azure exposure.
- **DevOps:** Git, CI/CD, Docker and automated deployment workflows.

LEADERSHIP & OWNERSHIP

- Technical ownership of frontend modules from requirement analysis through production deployment.
- Mentoring, technical guidance and code reviews for frontend engineers.
- Architecture decisions focused on scalability, maintainability and performance.
- Collaboration with product, UX, QA, backend and DevOps teams.
- Production troubleshooting and release ownership.

SELECTED DOMAIN EXPERIENCE

- Enterprise web applications and high-traffic web platforms.
- Performance-sensitive responsive applications.
- API-driven applications and reusable frontend systems.
- Cross-functional delivery involving product, design, QA and backend teams.

PORTFOLIO

kuttanajith.github.io/ajith-ka-portfolio/

EDUCATION

B.E. Computer Science Engineering — KLN College of Engineering, Madurai | 2015 – 2019

ADDITIONAL INFORMATION

- Open to Senior Frontend Engineer, Frontend Lead and UI/Frontend Architect opportunities.
- Core focus: React.js, Next.js, TypeScript, frontend architecture, performance and cloud-enabled applications.
